

WEDDINGS • ENGAGEMENTS • SHOWERS •
EVERY CELEBRATION

Collect voices, not just signatures.

One QR card on your tables lets guests leave voice messages, videos, photos or written notes from their own phones. You approve them, keep them and listen again years later.

No app needed

No rental phone

Up to 300 memories

Approval & PIN

Voice message

Up to 2 minutes

Video

HOW IT WORKS

Your guestbook in 4 steps

01

Set it up

Sign in, name your event, add a welcome message and choose approval and PIN settings.

02

Print the cards

Print personalised table cards and place one on every table.

03

Guests leave memories

Guests scan the QR and leave a voice message, video, photo or note.

04

Approve and keep

Approve every memory, listen any time and download them.

Set it up a few days before your event and test it with your own phone.

GUEST EXPERIENCE

Scan, record, send.

No app to install. The QR opens in the phone browser, and everyone records from their own phone — no queue, all at the same time.

HOST PANEL

Every memory under your control

Nothing appears until you approve it. Add a PIN, open or close the guestbook, and optionally show approved memories on a public wall.

Approval (moderation)

Every memory waits for your approval

PIN protection

Only your guests can post

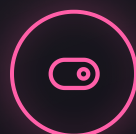

Download

Save voice, video and photos one by one

Public wall

Optional: approved memories on the page

Open / close

Stop new memories after the event

Up to 300 memories

Unlimited guests, 300 memories

TABLE CARDS

Personalised and print-ready

Once your guestbook is set up, open your personalised table cards in the panel and print them at home or at a print shop. Every card links to the same guestbook.

Your event name and date
on the card

One card per table, guests
scan at the same time

Get your guestbook

qrnot.com

Digital guestbook — \$29. Added to your account after purchase.

Etsy

Digital product in English, available worldwide.

Trendyol • Hepsiburada

Turkey: shipped with a printed QR table-card set.

FAQ

Do guests need an app?

No. The QR opens with the phone camera.

How many guests can post?

Unlimited guests; the guestbook holds up to 300 memories.

What if we get an unwanted message?

With approval on, nothing appears until you approve it; you can reject it.

Can we keep the memories?

Yes. Download voice, video and photos from your panel.
